KWPM

INCORPORATED

June 25, 1982

Dear Mr. Cooper:

First of all, let me appologize for the delay in sending you a letter. Seems as if everything has been happening around here lately!

Thank you for your letter of June 8. I'm glad you got a chance to listen to KWPM-FM. We have had DX reports from New York, Louisiana and the Great Lakes region to mention just a few.

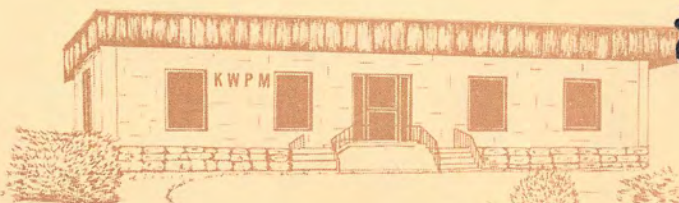

Our sister station, KWPM, will have annual proofs coming up sometime within the next few months--I don't have any specific date in mind yet. I have a hard time getting myself motivated to do them! I'm sorry to say, too, that KWPM doesn't rely on any commercial monitoring service for frequency checks.

Please find enclosed a few "goodies"--our current promos refer to KWPM as "Good Neighbor" radio from the Heart of the Ozarks!

Please stop in and visit us if you ever pass through the area! Again, thank's for letting us hear from you!

Sincerely,

Jimmy E. Thompson
Chief Engineer

KWPM - 1450 KHZ - 1000/250W
