Mr. Cooper:

I just wanted to verify your rundown of our station's activities on the evening of July 1, 1996. For your information, if you ever hear Bob Christianson somewhere other than WTEB, he hasn't left us. Bob is the evening announcer for the classical music overnight service we take off the satellite beginning at 10:06 pm each night, so if you're scanning the non-commercial part of the tuner on a future weekday evening, it's possible you might hear of him again.

I wasn't able to dig up a coverage map for you, but I have enclosed a copy of our newsletter for your perusal.

Sincerely,

George W. Olsen
