

**KRGI-FM**  
**Country 96**

March 3, 1981

Dear Mr. Cooper,

This is to confirm your reception of our broadcast. A check of our program log of July 17, 1980 follows your listing almost exactly - Congratulations.

KRGI-FM, at 96.5 FM, broadcasts 1 1/2 hrs each weekday, at 100,000 watts.

We are still puzzled over the reference to "naudity" and the phone #. The phone prefix, if correct, doesn't match Grand Islands phone system.

Grand Island is a "small" town, by Eastern Standards, of 37,000 people; but it's the 3rd largest in the state!

If you wish to update your files:

our Chief Engineer is now Gene Hornung  
AM Manager is Jay Varriek  
FM Manager is Kurt Boney

Your note caused much interest around here, and it appears you are proud of, and active in, your hobby... hang in there.

Bob Walker PD
