

04 June 1997

Tom Larson, Program Director  
WBYY 98.7 FM  
101 Back Road  
Dover, New Hampshire 03820

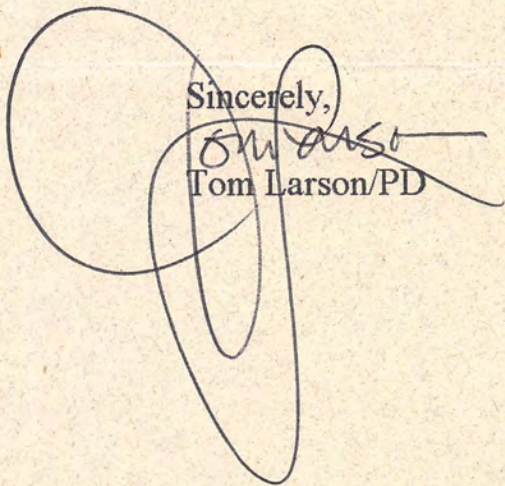

Mr. Cooper,

Be advised that on May 31, 1997, between the hours of 1539 to 1600, I can confirm that your rotary beam antenna in conjunction with your tuner, did in fact pick up WBYY's broadcast on 98.7 mhz.

I only wish all of the Portsmouth-Dover-Rochester, NH Spring 1997 Arbitron radio dairy keepers had tuners with your reception capability.

Again, congratulations on your reception of WBYY, and I hope you will become a regular listener to our station.

Sincerely,

  
Tom Larson/PD
