

FM **89 WEVO**

Public Radio for New Hampshire

October 5, 1981

Ernest R. Cooper
5 Anthony Street
Provincetown, MA 02657

Dear Mr. Cooper:

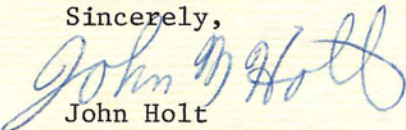

This is to confirm your reception of WEVO on Sunday August 2nd, our second day on the air.

We have a Harris 20 kw transmitter with a Harris 5 bay antenna. The antenna is 80 feet above ground, 258 feet above average terrain, and about 750 feet above sea level.

I personally enjoy listening to the 50 kw AM stations late at night, but I find them harder to receive here than in Michigan, where I come from.

Happy DXing.

Sincerely,

John Holt
Chief Engineer

Encl.
