

Mr Cooper,

It's great to hear from Provincetown. Sad to say, I haven't heard much from the world of DXers since my days at KSJB-am in Jamestown, North Dakota. I used to love hearing from folks as far away as Finland in those days....I found it very interesting.

I can definitely confirm that you heard Wscy-fm on the morning of June 13th, 1996. As you guessed, however, the last couple of things listed are from another station, most likely WCCC.

Thanks for your letter. Great to hear from you.

Jim Nyland  
O.M., Wscy-fm/WFTN-am

\*by the way, our power is, and always has been, 6000 watts.
