96.7

Ernest R. Cooper
5 Anthony Street
Provincetown, MA. 02657

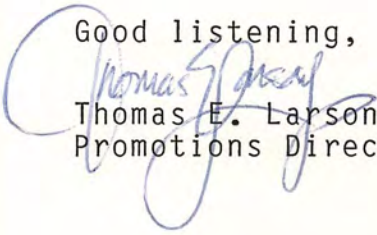

14 November 1984

Dear Mr. Cooper,

This is to confirm your letter dated November 5, 1984. We were elated to learn that "EXTASYS" reception on the 96.7 KHZ band came in so well. Radiating at 3000 WATTS, it's nice to know that on certain occasions folks in Provincetown can tuned us in.

Enclosed you'll find our coverage map (at 1000 UV/M) and something which I thought you would find entertaining. Ernie if you are ever in the third fastest growing area in the United States please stop in and say hello.

Good listening,

Thomas E. Larson Jr.
