Camden, New Jersey 08104
(609) 854-5300 (215) 922-0282

August 7, 1981

Mr. Ernest R. Cooper
5 Anthony Street
Provincetown, Massachusetts 02657

Dear Ernest:

Thank you for your signal report from early Sunday morning, August 2, 1981. I am glad to know our signal is being received that far away.

For your information, we are broadcasting at 38,000 watts E.R.P. (effective radiated power) and our tower is located 600 feet above the ground. WKDN is part of the Family Radio Network. We are a totally non-commercial, listener-supported radio ministry.

We receive our programming by way of satellite on Comstar D-2. We receive the satellite programming on a 16-foot diameter microwave receiving dish located at our studios in Camden. We use dual-city identification as you already made mention (Camden-Philadelphia) because we cover the city of Philadelphia very well.

We are in no way affiliated with WTMR at 800 on the A.M. dial. Our only connection with them is we share a common tower site.

I am enclosing some literature. If you wish to be placed on our mailing list, please let us know. We do not have a coverage map.

Thank you again for your encouraging letter. We trust you'll be able to receive many more stations in your DXing activities.
