Dear Ernest:

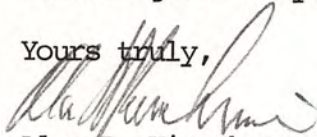

I was somewhat surprised to receive your reception report concerning WPAT-FM. It is unusual to hear of an FM report from such a distance from our transmitter. This letter is to report that you did indeed receive WPAT-FM on April 23, 1985 at the hour specified in your letter.

There have been many changes here at WPAT since the days you used to listen. The major change is that we now transmit from the World Trade Center in lower Manhattan with an Effective Radiated Power of 5,400 watts.

As per your request, attached is a coverage map and I have also included a few of our bumper stickers for you.

Thanks again for your report.

Yours truly,

Alan D. Kirschner  
Technical Supervisor
