5 Anthony Street
Uxbridge, Mass. 02657

Dear sir:

This is to verify you're reception of radio station WRIO-FM earlier this month. We broadcast with an effective radiated power of 3000 watts, 160 feet above average terrain.

Our company owns a powerful FM station in Florida, WRYO-FM in Crystal River. It broadcasts with an effective radiated power of 100,000 watts, 500 feet above average terrain. WRYO-FM is on the air transmitting signals for Christ at 98.5 mhz. 24 hours a day.

I certainly appreciate your correspondence and hope you can receive our New Jersey or Florida stations in the future. Enclosed are coverage map and program guide.

In His service,

Kenneth Manri
Director of Operations, WRYO/WRIO
