Dear Ernest,

This is to confirm your reception of WSJL on 6/21/88 + 9/13/88. On 5/28/88 our H.A.A.T. increased. We are now transmitting from 300' tower. The old one was 150'. Same ERP of 3kW circular polarized.

I've <sup>been</sup> busy through the summer months, too busy! My apologies for not writing you sooner.

In His Service,  
Ken Vroman
