

June 5, 1984

Ernest Cooper  
5 Anthony Street  
Provincetown, MA 02657

Dear Mr. Cooper:

Thank you for your letter of reception of WAPP in Provincetown, MA on May 29, 1984.

As you know your reception of WAPP is caused by changing atmosphere conditions and is not always reliable. Being able to hear stations from "Home" must be very enjoyable. WAPP operates from the World Trade Center with an antenna height of 1400 feet AMSL and TPO of 6400W, ERP of 5.8KW (H) 5.4 (V).

Good luck with your new career in Broadcasting!

Respectfully,

Larry Strasser  
Chief Engineer WAPP
