Dear Mr. Cooper:

October 26, 1979

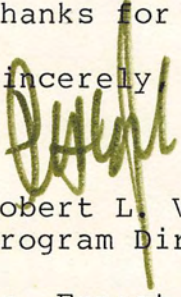

This letter will verify the programming you heard on New York Radio Station WCBS/FM on October 20th.

We are very pleased you were able to copy us through the QRM.

By the way, we are installing a new transmitter at our facility on top of the Empire State Building which will increase our output from the present 4,200 watts to 6,500 watts. I doubt it will help in your area...but this new power should help us fill in the local "dead spots".

Thanks for writing, and enjoy the belt buckle.

Sincerely,

Robert L. VanDerheyden  
Program Director
