Provincetown, MA 02657

Dear Mr. Cooper:

Thank you for your recent reception report of WHUD. This will confirm your correct monitoring of May 15, 1985.

The studios of WHUD are located three air miles from the transmitter site.

WHUD operates with a Gates FM-20H3 transmitter which is remote controlled.

The tower is 390' high located on a site which brings it 1080' above sea level. It utilizes a Gates circular polarized 6 bay antenna transmitting with 50,000 watts of vertical and 50,000 watts of horizontal effective radiated power.

WHUD broadcasts in stereo twenty-four hours a day.

Sincerely,

Nathaniel B. Johnson  
Chief Engineer
