July 21, 1994

Mr. Ernest R. Cooper  
5 Anthony Street  
Provincetown, Massachusetts

Dear Mr. Copper,

Thank you very much for your very long "DX" report on WLZW. The "FOG" has done it again.

I have a friend in Norwich, Connecticut that has "DX" confirmed receptions from all fifty states on the AM band. His most difficult reception was Hawaii.

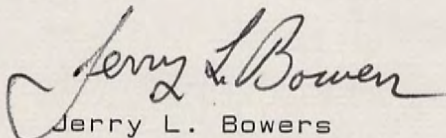

Your report of WLZW reception on July 8, 1994 from 7AM to 7:37AM and reception on July 9, 1994 from 7:31AM till is correct. From your list of receiving equipment it is a sure thing that if the signal be there you will detect it.

WIBX AM has a directional signal which radiates about 10,000 watts towards your direction. At night we are heard well in Boston.

The WLZW signal is 25,000 Watts at 660 feet on the highest mountain from Albany to Syracuse. However, from here to Provincetown is a long way to fly.

Thank you again for your reception report.

Sincerely,

Jerry L. Bowers  
Chief Engineer
