Dear Sir:

This letter is to thank you and also to verify your report of excellent reception of WNYC-FM at 3:06 AM to 3:35 AM on July 13, 1981. The distance from New York's Empire State Building is about 218 miles radially, which is quite a haul. The quality and strength of distant signals during band openings is always amazing.

Enclosed find a current copy of our Bulletin, which will give you some idea of our present program format. Unfortunately, a coverage map is unavailable at this time.

Yours truly,

Stanley Rubin
Chief Supervisor
