Dear Mr. Cooper:

This letter is to confirm your reception reports of WZFM on April 1st and July 25th 1986.

WZFM is a 3000 watt E.R.P. class A FM station located in Irvington, New York, with studios located in Pleasantville, New York. WZFM uses a two bay circularly polarized E.R.I. antenna. The transmitter is a Broadcast Electronics FM-3.5A 3.5 KW FM transmitter. Our HAAT is 328 feet.

To answer your question about whether you would hear WZFM in Brooklyn, the answer is yes and no. That is considered extreme fringe for us but signal reports from that area are not uncommon. The range of this station is about fifteen to twenty miles.

Thank you for your interest in our station, and we are terribly sorry for taking so long to reply. Happy listening.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Tarsio', is written over the typed name.
