Dear Mr. Cooper,

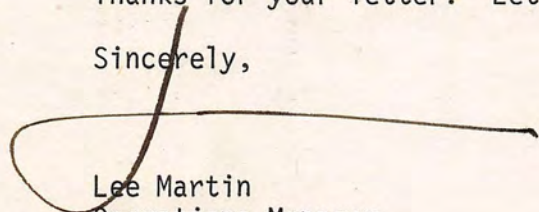

Indeed it was our own WEAZ(FM) which you DXed on Sunday morning, June 13.

We put out 12.5 KW ERP at 1007 Ft. on a triplexed antenna which we share with WMGK and WSNI. Our transmitter is a CSI and we use Harris tri-band processing.

We are a Bonneville Broadcast Systems music syndicated station, and may soon be changing from tape delivery service to Satellite delivery. We use a Ward-Beck console, ITC 99 Series cart machines, and Ampex ATR 100 reel-to-reel tape decks.

Thanks for your letter. Let me know if you catch us again.

Sincerely,

Lee Martin
Operations Manager
