

September 20, 1984

Dear Mr. Ernest R. Cooper

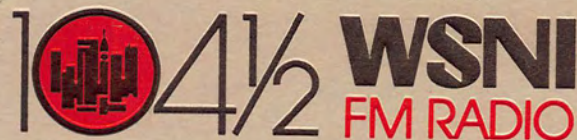

Thank You for your DX Report, the long distance reception of radio signals has been an institution warranting more public attention than it has received in my opinion it is a science all on it's own and deserves our utmost attention, I am pleased to respond to your report that it is accurate and all details of your are true.

Thank You for Your dedication and time in sending the report.

Sincerely

A handwritten signature in blue ink, appearing to read 'Ben Hill'.
