Dear Mr. Cooper:

Let me apologize for the delay in answering your verification request. At a student run station such as WDOM, with the great deal of turnover in help, often times the mail does not get routed to the proper person, or gets misplaced. That is I'm sure what happened, as we would not have ignored such an interesting letter. We are ecstatic to know that our signal reaches to the tip of the cape.

We can verify that you heard WDOM at 91.3 FM between 5:44 and up to 6:00. The last three accounts you give are probably not ours, but from 5:44 - 5:57 you were listening to our sports talk show, "Off the Cuff."

Our signal is 125 watts, and our transmitter is located on the tallest building on campus. Thanks again, and best of luck with your future station reception.

The staff of WDOM, 91.3 FM, Providence RI
