

August 10, 1979

Mr. Ernest R. Cooper  
Five Anthony Street  
Prvincetown, Massachusetts 02657

Dear Mr. Cooper,

Our Chief Engineer, Ernest Sutton, is away from the office today, but before he left he asked me to respond to your request for a verification of reception.

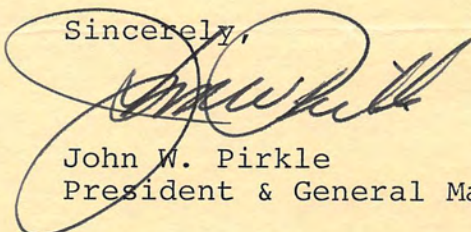

From the reception report you furnished us in your letter of August 3, 1979, we are convinced that you heard WOKI-FM at 8:49 - 8:50 PM on August 2, 1979 in Provincetown, Massachusetts.

This is certainly one of the farthest distances from which we have received a reception report, and we appreciate your notifying us of your reception.

Now, about our AM station: We have changed the WOKI(AM) call sign to WORL. Ernest informs me that he expects to do a proof of performance in January, 1980. I wish I could be more specific.

Thanks for your interest in FM DX.

Sincerely,

John W. Pirkle  
President & General Manager
