Dear Mr. Cooper,

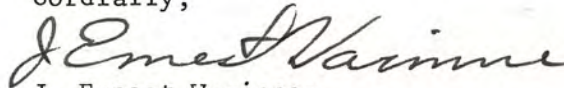

Sorry for the long delay in responding to your last letter; it had fallen down behind my desk and didn't re-appear until a recent attempt to clean up my shop.

Your account of our programing for June 13, 1982 is correct. You noted in your letter that you had received WXRI, WGH and WNOR in the past. These stations are all in the WWDE listening area.

WWDE operates with an ERP of 50,000 watts from a tower height of 400 feet. The tower is located just off I-64 in Hampton, Virginia.

I wanted to send you a bumper sticker from 2WD but couldn't find any, so I will try to send one to you as soon as we get them.

Cordially,

J. Ernest Warinner
Chief Engineer
