June 28, 1993

Ernest R. Cooper  
5 Anthony Street  
Provincetown, Mass 02657

Dear Mr. Cooper,

Thank you for your letter, I received it this morning. On Thursday, June 24th at 11:53 AM, WGNV began broadcasting at 50,000 watts atop a newly constructed 600 foot Pirod tower. This is the culmination of a power increase from 25 kw at 331 feet.

Although we anticipated increasing our coverage contour significantly, Provincetown was not included in any engineering studies.

I will verify your reception of the 4:38 PM, C.D.T. announcement including our station slogan "Victory 88" and naming an artist, Billy Sprague (one of our core artists).

The 4:39 & 4:41 broadcasts did not originate from WGNV.

Enclosed please find a WGNV program schedule, coverage map and bumper sticker. We are a 24 hour per day full time Christian Music radio station. Our studio and tower is located in Milladore, WI which is in Central Wisconsin.

Thanks for your letter and keep listening as often as you can.

Sincerely,

Steven A. Bracco  
Station Manager
