This letter will confirm your reception of W.H.T.L. 102.3 FM Whitehall, WI on Saturday December 19th, 1992.

In fact at 2:55pm christmas music was up in the music rotation although Joe Korpi who was on the air at the time doesn't recall if the selection was "The First Noel" or not. Weather was on at 3:06pm and sponsored by G.T.C. Motor parts in Whitehall the local Honda snowblower dealer. "I Like Beer" is one of our favorites here too, I think We're one of the few stations to still play this Tom T. Hall Classic. The mention of phone number is not ours, although the Christmas carol that followed likely was because again one was up in music rotation. What amazes me the most is that you pick up so clearly Kevin and Marty out on a remote broadcast. Marty and I were in Eleva, North of Whitehall with a remote from the Cardinal Cafe, Santa was there too !!! Afore mentioned Dolly Parton and Cristy Lane, Also weather report at 3:20 pm were W.H.T.L. too.

I found your letter very interesting as well as informative, thankyou for writing. I hope this letter will be suffient for your records.

Sincerly in Radio,

  
Kevin E. Severson  
Station Manager  
Jim Casey  
Cheif Engineer
