Carl W. Dabelstein  
8209 West 78th Street  
Overland Park, Kansas 66204

Dear Carl:

This will confirm your reception on October 19, 1981 at 6 a. m. of this station on 1050 Khz.

We are a daytime only station with a normal power of 250 watts. During some winter months we are required to sign on with a pre-sunrise authorization of 100 watts.

I note that you are an amateur radio operator. I, too, am a ham. I hold a technician's license and consequently am not licensed to operate phone on the HF bands.

Good luck to you on your DXing, which you seem to have done a lot of.

73.

  
Jack Dobbs, WB4SMW  
Chief Operator, WCRI
