

FEBRUARY 3, 1966

CARL DABELSTEIN KØSBV

This is to verify that you did receive station WCRT-AM from 2.18AM to 2.31 AM CST on January 28, 1966 on 1260kc.

At the time of reception we were making audio adjustments and transmitter checks. Our transmitter is a Gates BC-5P 5000 Watts. Our antenna is a quarter wavelegnth, shunt fed.

We begin our daily broadcast each day at 5:00 AM and conclude at sundown.

We are also on the air with WCRT-FM STEREO 96.5MCS with an ERP of 49 KW. Both transmitters are remote controlled from our studio about 5 miles away.

Please let us know if you hear us again Carl.

Maybe I will run into you on 40 meter cw some time. My call is K 4 H P R, I am a member of the QRP radio club and CHC Top Honors. Write me and we can get a sked. I work till midnight every night. My rig is a NC-300 and Johnson Pa cemaker with a TA-33 and dipoles.

Again tx for the letter Carl . Hope to hr fm u agn sn.
