

November 18, 1971

Mr. Carl W. Dabelstein  
3300 North 56th Street  
Lincoln, Nebraska 68507

Dear Mr. Dabelstein:

I am pleased to verify your reception of KALO from 1:11 to 1:15 A.M. on November 14, 1971. At this time, we operate on 1,000 watts non-directional for the purpose of frequency measurement. Normally, this station operates at 500 watts directional after sunset.

It is interesting to note that the frequency measurement service in Lee's Summit, Missouri had a difficult time in reading our signal that night.

Sincerely,

A handwritten signature in cursive script that reads 'D.J. Philipps'.

D.J. Philipps  
Chief Engineer
