Dear Carl,

This is to acknowledge your letter asking for varification of
a transmission of February 23, 1963.

I checked my logs ~~before~~ before and don't know how I missed it.
But we did have our frequency checked on the stated date and it
would include a test tone and station I D as you stated in your
report.

If You've been trying for two years for a varification on
that report, I must say you are persistant.

Best Regards,

A handwritten signature in blue ink that reads 'Merl Jones'.
