Dear Sir;

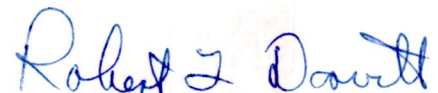

This is to acknowledge your reception report of August 3rd in which you reported our signal strength as S - 7. We are pleased to receive your report.

Our transmitter is a Gates BC-1T operating into a 153 foot tower located in a shallow valley approximately 3 miles northwest of the downtown area. Radio Station KFAY, which you also heard, is located about one mile west of our location.

I am sorry that we do not have any up-to-date coverage maps at this time. Our last map was with the old 250watt station and has not been updated.

Thank you again for your report.

Sincerely Yours,

Robert L. Dorvitt, W5WXP
Chief Engineer
