

Popularity leadership proved by audience ratings

1050 K. C./LITTLE ROCK
Victor Broadcasting Company, Inc.
VICTOR BUILDING, 4015 W. CAPITOL
LITTLE ROCK, ARKANSAS

January 10, 1963

Mr. Carl Dabelstein
12524 C Street
Omaha 44, Nebraska

Dear Mr. Dabelstein:

This is to verify your letter of January 5, 1963. We are normally a daytime station, and the time you heard us we were making a frequency check. We operate on 1050 KC with a power of 1000 watts. We make this check every first Saturday of each month at 12:15 am to 12:30 am C.S.T. The check was made with Commercial Radio Monitoring Company in Lee's Summit, Missouri.

Thank you for your letter and also the cup of coffee.

Sincerely,

RADIO STATION KVLC

Clarence Schmidt
Chief Engineer
