Dear Friend Carl:

We were on the air at the times indicated in your letter. So we verify your reception. We were running 1000 watts at about 60% modulation with a 1000 hertz tone. Our Ant is a 5/8th wave vertical 440 ft tall.

By the way I am a native Nebraskan, I was born in Columbus and attended the Univ of Nebr in the late thirties. I am also a follower of the nebraska cornhusker. Also a ham W5ZKR.
