Dear Carl,

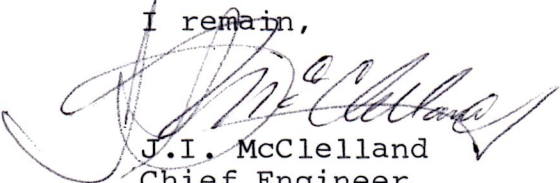

We here are happy to find out that our AM signal reaches, however weak your area. After listening to the tape I will be very happy to verify your reception.

This may be of interest to you. We are using a Collins 20 V-2, 1,000 watt transmitter and are North-South directional pattern antenna wise.

I hope that this note will be of interest to you and thanks again for your verification request. We like hearing from all of you who D.X. radio.

Enclosed please find a dial card and our coverage map.

I remain,

J.I. McClelland
