This is to acknowledge receipt of your frequency test report. Thank you very much. We also received one from a Lance Muller, in San Diego. Last month we received one from Reading Penn. It is very interesting for me to receive these reports, as I am new in the radio business. My brother and I bought KVIO last Sept. He has been in radio and TV since he got out of school, almost 20 years ago, and this is all old hat to him, but I am getting a lot of enjoyment out of all phases of the business.

Thanks again for your report.

Sincerely,

Vi Magnusson
