Dear Carl,

This is to verify your reception report of January 4, 1963.

Larry you mention in your report is Larry Grannis...

Most all of what you reported was us. Kimberly 23295 sure is. With the Anc dialing the pre-fix won't help identify anything.

KBOX in Dallas gives us most trouble in reception reports. Get alot from New Zealand and they're always mentioned.

As I mentioned on the other sheet..new coverage maps are coming off the printers any day now and will forward one to you. Get a steady flow of DX letters and have quite a backlog that want coverage maps.

Air time... 6:30 am...and that's what the time of day is right now so 'll be going.

73's...

Jean "Spider" Mac Lean
