Carl:

I want to thank you for taking the time to send me your report, and also for having patience and trying again for a report, or rather an acknowledgement from me. I have been engaged in rebuilding our antenna system during the summer and did not get around to some of my correspondence as I should have.

And on top of all that, I lost your first report before I could answer it.

Our transmitter here is a #20K Collins 1 kilowatt, with almost all the rest of the equipment being also Collins with just a sprinkling of Gates here and there.

Enclosed you will find out QSL card confirming your reception of our station.

Thanking you for your report, and wishing you good DX listening, I remain.....

Sincerely yours.....

Joe Killgore
