Dear Carl,

Yes that must have been us you heard. This spring we will start a new D.A. project to increase our power to 1Kw and be a 'little directional', and if the Mexican Government wil ever sign the new treaty we may even be allowed to go 250 watts at nite. Thanks for you interest. If we can be of service let us know.

In "His Service"

A handwritten signature in blue ink, which appears to read 'Paul M. Pettit', is written over a faint, larger version of the signature.

Paul M. Pettit
Group Tech. Dir.
