## MARKET DATA:

Over 82% of the entire population of the State of Colorado live and work in the lush, rich area known as the "Front Range" or the "Eastern Slope" of the majestic Rockies. The KSSS .5 M V signal blankets most of this area.

Colorado Springs. . .one of the nation's fastest growing markets . . .is the corporate headquarters for some of the nation's finest businesses. Numerous federal agencies and military installations add greatly to the economy.

Colorado Springs, located at the foot of 14,110 foot snow clad Pikes Peak, has been proclaimed nationally one of the five most beautiful cities in the United States. Its mild climate and easy access to unlimited recreational facilities, makes it one of the state's largest tourist attractions. Over 2.2 million tourists visit Colorado Springs each year.
