Dear Mr. Dabelstein,

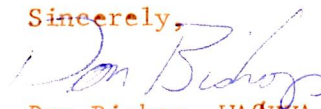

This will confirm your reception of the KUAD signal on September 15, 1971. We find your report corresponds with our log of that date.

Your friend Ernest Wesolowski spoke with us by telephone last week, and asked that we expedite a reply to your report. I'm rather embarrassed that we should require such a persistent effort, but such is life at a small station. Our Chief doesn't reply to reports, and I try to keep at them when I can.

KUAD is 1000 watts daytime non-directional, with 500 watts pre-sunrise authority.

Thanks again for your report.

Sincerely,

Don Bishop, WAOKA
