

October 18, 1971.

Mr. Carl W. Dabelstein
3300 North 56th Street
Lincoln, Nebraska 68507

Dear Mr. Dabelstein:

This will confirm your reception of WAVS at 12:04 a.m., CDT on October 12, 1971.

WAVS is a daytime only 5 kilowatt station with a directional antenna of 4 towers which directs the power north.

WAVS was on the air for the purpose of making frequency response and distortion measurements at the time of your reported reception.

Sincerely,

Thomas Middleton
