

March 20, 1975

Carl W. Dabelstien  
3300 North 56th. St.  
Lincoln, Nebraska 68507

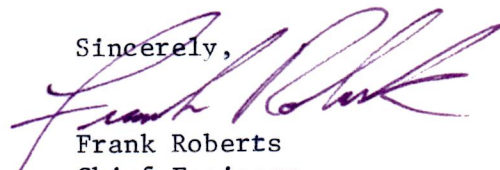

Dear Carl,

This is to confirm your reception of WBSR from 4:56 to 4:59 A.M. on March 16, 1975. I must say that after checking my records, your QSL report is the farthest one we have received. We rarely receive any out-of-state QSL's. One sour note though, when Craig O'Brien (the newsman you heard) learned of the existence of a tape of his golden voice made in Lincoln, Nebraska he was ecstatic. However, when we tried to listen to the tape, we discovered that the tape had been erased in the mail. If a master does exist, we would appreciate a copy.

As you probably know, WBSR operates on an assigned frequency of 1450 KHZ with a daytime power of 1 KW. At night we power down to 250 watts.

Thanks once again for the report, enclosed you will find a tape of some of our jingles and other paraphenalia. ~~Maybe~~ you can incorporate them into your collection. (One of my hobbies is collecting jingle packages.) Thanks again.

Sincerely,

Frank Roberts  
Chief Engineer  
WBSR
