Lincoln, Nebraska

Dear Carl:

I was very much pleased to receive your letter, along with your WJOE Station reception report. I also enjoyed the recent telephone conversation.

I appreciate the information you gave me concerning the National Radio Club. I was especially pleased with the copy of the 1080-1090 KHz section of the Nighttime Pattern Book.

I am making plans and looking forward to the station tests for Monday, March 11, 1974. I will appreciate and verify all reports of WJOE.

Please consider this letter along with the station area coverage map as verification of your report of February 21, 1974.

If I can be of any further assistance to you or to the National Radio Club please let me know.

Thanks again.

Sincerely,

A handwritten signature in blue ink that reads "Jim Barnhill". The signature is written in a cursive, slightly slanted style.
