Miami, Florida 33135

Dear Mr. Dabelstein:

This is to confirm your reception report of October 5, 1979 between the hours of 0241 and 0300, Eastern Daylight Time. We were on the air doing routine maintainance and calibration of our equipment. WRHC is normally on the air from 6 A.M. local time time to local sunrise with 91 watts of power and from local sunrise to local sunset with 10,500 watts into a four element endfire directional array bearing 314° . The format of WRHC is all-news in spanish.

Joel M. Wilson
