Dear Carl

This confirms your reception of our station. We normally signoff from Sunday midnight to 5 :30am Monday, but due to a rare snow we decided to continue operations all night.

I noticed from your letter that you are a fellow ham. I've passed through your area several times with two meters but did not do much transmitting, Perhaps we'll meet on the HF bands sometime.

Good luck on getting 2000 confirms & 73's
