December 30, 1975

Carl W. Dabelstein
3139 North 65th Street
Lincoln, Nebraska 68507

Dear Mr. Dabelstein,

Thank you very much for your reception report and your telephone call of December 15, 1975. I have checked our operating log for that morning and find that your report is correct. Therefore, I can verify your reception of WWNS on December 15, 1975 from 0235 to 0242 CST.

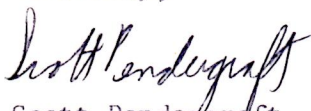

We were glad that the code ID's helped many DX'ers pick us up that wouldn't have been able to otherwise. Many of the 31 reports we have received so far mentioned that the code was about all they could pick up well. Almost no one could hear the classical music that we ran along with the code and phonetic ID's.

Back in 1963 to 1967, I lived not too far from Lincoln, south of Omaha, in Bellevue, Nebraska, right next to Offutt Air Force Base. At that time, my father was stationed there. In high school, I first became interested seriously in radio and was a member of the Bellevue Amateur Radio Club.

I have enclosed some information about Statesboro and a sketch of our tower facilities that may be of interest to you.

Again, thank you for the reception report, and have a Happy New Year.

Sincerely,

Scott Pendergraft
Chief Engineer
