Dear Carl:

I'm sorry about the tremendous delay on getting this verification to you. My predecessor here at KADR was rather poor at getting paperwork done.

I can confirm that the sign-on announcement that you quoted in your March 9 letter was broadcast on AM 1400.

KADR's transmitter is an RCA BTA-1R and is connected to a 176 foot tower at latitude 42 50' 57"; longitude 91 24' 43". KADR now simulcasts with its sister station KCTN-FM, and operates with a full-time power of 1000 watts non-directional.

Thank you for your inquiry.

Sincerely,

Dan Voss
Chief Engineer
