Dear Carl:

Our report must of gotten lost ...your report of K C O B
is correct according to air log.

KC O B is a non directional station of 1000 watts.

We also have K C O B-F.M. on 95.9 Kilo-Hertz 3000 watts
but our F.M. ANT. only up some 200 ft.

Glad to have your report.

Sincerely,

Walter D. Keith
