

T. A. QUINLAN
GENERAL MANAGERMay 3, 1972
Perry, Ia.

Dear Carl,

Thank you for the reception report. All of your notes were correct and frankly was quite surprised to know our 500 WATT signal actually goes that far. My name is Steve Jorber, and I was the announcer that was on duty when you picked us up. I have picked us up as for Glenwood, Ia but I had no idea that we went to Lincoln at all. I am also a ham, WA~~9~~42R, although I am currently inactive. I don't have a rig at the moment. Say maybe you've talked to my dad, W~~9~~65T at Gilman, Ia. He's been a ham since 1946 or so. I got my ticket while I was in Vietnam in '69, I was a Mars phone patcher over there at ABSAK at Camp Seagle, just south of Hue.

Well, thanks again Carl. Good listening.

Steve Jorber,
staff announcer
