Dear Mr. Dabelstein,

Thank you for your QSL on our radio station KWLO. Your report is correct in reference to the program content. The reception you reported is good considering that the area is in our pattern null. I have sent a coverage map showing the 0.5 mv/m contours for day and night pattern.

KWLO received its new call letters because the station, along with its sister station KFMW (107.9, 100 KW-ERP), was sold to Forward Communications. KWLO's former owner, Black Hawk Broadcasting, still owns KWVL-TV and we couldn't both have the same call letters.

Good luck on your very awarding hobby!

Sincerely,

A handwritten signature in blue ink that reads 'Ken Drewes'.
