JUNE 10, 1975

Dear Sir;

This letter is to confirm your report on June 7, 1975, between 5:53pm and 6:03pm.

The reason you didn't receive our station earlier in the day because we were running low power 1000watts from 1138am to 5:32pm for tower painting and returning to 5000 watts at that time.

There are two hams here at KWSL Ted Mann 5:00am to 9:am. his call is WAØTIR and myself as chief engineer KØAAR.

THANKS FOR LISTENING

JOHN A. BYLIN KØAAR C.E.

John A. Bylin
