Dear Mr. Dabelstein:

I am very sorry that you did not receive a verification to your earlier report. We had noted to send one to you, but it is quite possible that the secretary missed sending the letter to you. However, we will try and correct this error with this letter.

This letter is to serve as a verification that you heard Radio WCAZ, 990 Kcs., Carthage, Illinois, from 12:20 a.m. to 12:30 a.m., Central Standard Time, on August 13th, 1962.

What you heard at that time was our frequency check with a monitoring station and service in Kansas City, Mo. We run monthly frequency checks after Midnight, C.S.T., on the second monday of each month.

We are enclosing a map, and a short history of WCAZ, in case you are building a file on the stations that you get verifications from. I am extremely sorry that you did not get a verification at the time of your report, but perhaps this will help out some.

Yours very truly,

*Jerry Nutt Jr.*
